Four components without solvents. Sand colour, gives turquoise water. Finished with AntiLeak.

BUILD-UP	1 coat of CemPool, 1 coat of AntiLeak
SURFACE	Concrete, cement, tiles and marble. Concrete under 6% moisture
PACKS	15 kg

SYSTEMS AND FINISHES

CEMPOOL CimentArt is a continuous coating without joints, ideal for covering the inside of swimming pools, whether they are newly built or refurbished old pools. With the application of this product you will achieve a unique sensation due to its sandy colour and will create a spectacular turquoise green effect in the water.

Its working system is simple: apply a layer of CEMPOOL CimentArt directly onto the substrate and smooth it with AntiLeak CimentArt, which allows you to finish any pool, regardless of its size, in just a few hours.

CEMPOOL CimentArt is a thin, 4-component solvent-free coating. This mixture contains waterproof additives that give our coating excellent hardness. It is completely waterproof under both direct and indirect water pressure and is highly resistant to humidity and chemical products.

CEMPOOL CimentArt can be applied to the inside of walls, stairs, and floors of swimming pools and in general any area where there is water.

CEMPOOL CimentArt can be applied to all types of substrates such as concrete, cement, ceramic tiles, marble, and tiles.

It can be applied even with a certain degree of humidity in the substrate (concrete humidity <6%).

COLOURS

Sand

There may be chromatic differences due to the resolution and calibration of screens and the microcement peculiar finish.

ADVANTAGE

- Unique pools. Turquoise green water color.
- Possibility of finishing the pool, regardless of its size, in 1 day.
- Great resistance to chemicals (chlorine, salt, etc.)
- Easier to clean algae and organisms by not having joints.
- It does not retain heat, on pool edges or terraces you can walk barefoot in direct sunlight.
- Without maintenance.

OUR GUARANTEES

CimentArt Microcement declares that its products are guaranteed in the following situations, provided that the application rules and the technical data sheets are strictly followed:

- Crack-free guarantee: our products never crack. If a crack ever appears on our products, it will always be because the surface where it is applied has cracked.
- Adhesion guarantee: we guarantee that our products do not detach or peel off from the surface where they are applied.
- No decolourization guarantee: we guarantee that there is no decolourization or change in colour over time, even if applied outdoors. In the case of outdoor applications, we recommend using light colours.

This guarantee does not cover any structural movements of the building or home that cause cracks, detachment, or peeling on the surfaces where it is applied, or impacts, capillary action, floods, or scratches received on its surface.
